

**KICKER®**  
**COMPVT SUBWOOFER**

CVT**12**, CVT**10**

Models: CVT12 / CVT10

### Congratulations on your KICKER purchase

Please record your purchase information and keep your sales receipt for validation of warranty.

Authorized Kicker Dealer: \_\_\_\_\_  
Purchase Date: \_\_\_\_\_  
Subwoofer Model Number: \_\_\_\_\_  
Subwoofer Serial Number: \_\_\_\_\_

The Kicker CompVT subwoofers were specially designed for "Livin' Loud" out in the harsh automotive environment. CompVT subwoofers are versatile and surpass the competition in a sealed or vented box. The ultra-thin mounting depth make the CompVT subwoofers ideal for custom installations and space-limited applications. See Figure 1. They are made of advanced materials and construction techniques to maintain optimal performance for years to come.

### Performance

Model:	CVT10	CVT12
Nominal Impedance [Zn], ohm	2 or 4	2 or 4
Resonance Frequency [fs], Hz	32.7	32.3
Power Handling Watts, Peak (RMS)	800 (400)	800 (400)
Sensitivity [SPLo], dB @ 1W, 1m	87.2	87.1
Effective Excursion [EXmax™], in (mm)	.501 (12.73)	.498 (12.64)
DC Resistance [Re], ohm	2.13	2.16
Mechanical Q-Factor [Qms]	9.56	10.16
Electrical Q-Factor [Qes]	.461	.546
Total Q-Factor [Qts]	.440	.518
Equivalent Volume [Vas], ft³ (L)	1.30 (37.14)	2.15 (61.0)
Net Displacement, in³ (cc)	48.2 (790)	52.4 (860)
Outer Frame Diameter, in (cm)	10 5/8 (27)	12 1/2 (31.8)
Hole Cut-Out Diameter, in (cm)	9 1/8 (23.2)	10 15/16 (27.8)
Mounting Depth, in (cm)	4 3/16 (10.7)	4 5/16 (10.9)

CompVT Subwoofer

Comp Subwoofer

Note: All specifications and performance figures are subject to change. Measurements based on 2 ohm voice coil models. Please visit the [www.kicker.com](http://www.kicker.com) for the most current information.

### Sealed Enclosure Applications

The CompVT generates more sound pressure than competing subwoofers on the market and excels when used in the recommended sealed boxes. These sealed enclosure designs give the smoothest response with increased energy at the lowest frequencies, 20 to 30Hz. These designs deliver massive amounts of highly-accurate bass and can be driven with punishing levels of amplifier power.

The CompVT high performance suspension system can operate in a larger sealed enclosure. This maximum enclosure volume application is ideal for SQ (ultra sound quality) installations. The SQ enclosure generates a very flat response curve and superbly extends the subbass response.

CompVT subwoofers perform well in any size sealed enclosure between the Compact and SQ volume recommendations. These systems will exhibit benefits of both designs: Compact produces high-impact bass, and SQ generates low bass frequency protraction. Overall, the system will sound more like the recommended enclosure design it is closest to in enclosure volume. These enclosure recommendations have been calculated with the airspace inside the enclosure and include the displacement of the woofer. All sealed-enclosure airspace should be filled to 50% loose poly-fill (polyester fiberfill) stuffing. Do not make the airspace greater than the SQ, maximum enclosure volume, recommendation.

Model:	Sealed Compact (Minimum Enclosure Volume)	Sealed SQ (Maximum Enclosure Volume)
CVT10	.8 ft³ (22.7L) Power Handling = 400W RMS	3 ft³ (85L) Power Handling = 300W RMS
CVT12	1 ft³ (28.3L) Power Handling = 400W RMS	4.6 ft³ (130L) Power Handling = 300W RMS

### Panel Dimensions for Compact Sealed Enclosures using 3/4" (1.9cm) thick MDF: (See Figure 3)

Model:	Volume, ft³ (L)	Panel A, in (cm)	Panel B, in (cm)	Panel C, in (cm)
CVT10	.8 (22.7)	3 X 16.5 (7.6x41.9)	18 x 30.5 (45.7x77.5)	3 x 30.5 (7.6x77.5)
CVT12	1 (28.3)	3.125 x 16.5 (7.9x41.9)	18 x 36 (45.7x91.4)	3.125 x 36 (7.9x91.4)

To make the most efficient use of space when building the compact sealed enclosure for your CompVT subwoofer, you must use the included clearance plate. The clearance plate allows the CompVT subwoofer to sit recessed within the back panel of the subwoofer box to minimize the enclosure's depth. The clearance plate must seal tightly. First, use a plunging router, straight-cut bit, and a circle jig to create a 1/16" (2mm) deep recess with an outer diameter of 6 1/2" (16.7cm) and an inner diameter of approximately 5" (12.7cm). Center the recess behind the subwoofer on the back panel. Then, cut a 5 1/4" (13.3cm) diameter hole in the center of the recess all the way through the back panel. Using the clearance plate as a reference, drill the six screw holes with a #29 (0.136", 3.5mm) drill bit. Next, countersink each screw hole using a 1/4" (6mm) drill or countersinking bit so the clearance plate will fit tightly against the back panel. Remove the paper backing from the foam gasket and adhere it to the inside of the clearance plate. Then, fasten the clearance plate to the box with six #8 screws.

Figure 2

Please allow two weeks of break-in time for the subwoofer to reach optimum performance. To get the best performance from your new Kicker subwoofers, we recommend using genuine Kicker Accessories and Wiring.

Ported CompVTs? Absolutely...and with a vengeance! These enclosures incorporate massive slot-loaded (rectangular) ports with ultra low air velocity for ground pounding street bass that will make your “skin bounce on your bones!”

These boxes are the enclosure of choice for outrageous street bass and high performance SPL contests. If space is not a problem and you want to get the most from your CompVT, try one of these ported designs. You will not be disappointed.

The ported Compact design increases bass efficiency and fits in many space-limited applications. Although it is the smallest recommended ported enclosure, the output from 30 to 80 Hz will be considerably higher than that of any sealed box. The SPL / Deep Bass ported design has even more output in this crucial frequency band.

The SPL / Deep Bass is the largest and most efficient enclosure design. The SPL / Deep Bass delivers the sonic output needed to win SPL contests and it produces bass notes “all the way down to the cella”. This design turns heads and jump starts your heart.

Model:	Vented <b>Compact</b> (Minimum <b>Enclosure</b> Volume)	Vented <b>SPL/DeepBass</b> (Maximum <b>Enclosure</b> Volume)
CVT <b>10</b>	1.25 ft <sup>3</sup> (35.4L) + port displacement 2 x 10.5" (5.1x26.7cm) port, 20" (50.8cm) long Power Handling = 200W RMS	1.75 ft <sup>3</sup> (49.6L) + port displacement 2.5 x 10.5" (6.4x26.7cm) port, 20" (50.8cm) long Power Handling = 200W RMS
CVT <b>12</b>	1.75 ft <sup>3</sup> (49.6L) + port displacement 2.5 x 12.5" (6.4x31.8cm) port, 20" (50.8cm) long Power Handling = 300W RMS	2.25 ft <sup>3</sup> (63.7L) + port displacement 3 x 12.5" (7.6x31.8cm) port, 20.5" (52.1cm) long Power Handling = 300W RMS

Box**Building**Notes

Use 3/4" (1.9cm) or thicker MDF (medium density fiberboard) and seal the joints with silicone. Use the “template” inside your CompVT’s shipping carton to mark the mounting hole, then cut directly on the line. These designs need internal bracing. Add triangular bracing between each of the larger unsupported panels. See Figure 4.

All the cubic feet (L) measurements in this manual include the displacement of the woofer. For the vented enclosures the displacement of the port must be calculated and added to the internal volume of the final design. Use the outer dimensions of the port and multiply “X x Y x Z”, convert to cubic feet, for example the CVT12 vented compact design’s external port dimensions are, using 3/4” (1.9cm) MDF: [(12.5” + 1.5” total MDF wall thickness) x (2.5” + 1.5” total MDF wall thickness) x 20”] x (1 ft<sup>3</sup> / 1728 in<sup>3</sup>) = .65 ft<sup>3</sup>, and add this number to the internal volume of the enclosure, CVT12’s 1.75 ft<sup>3</sup> + .65 ft<sup>3</sup> = 2.4 ft<sup>3</sup>. See Figure 5. Due to the necessary length of these ports, you may want to fold the port along the bottom and back walls. It will be impractical to use round ports for these designs.

Do not install a port opening against a solid surface, such as an internal brace, back-panel or trunk wall, seat or interior panel of your vehicle. The port opening must remain unobstructed. Use the smallest dimension of the rectangular port as the minimum amount of space between the port opening and any solid surface to insure unrestricted airflow.

CompVT Subwoofer - Covered by one or more of the following patents: U.S. Pat #'s 6,611,604, 6,731,773 D473,216, D456,386, D449,293, D355,193, Taiwan Pat. #162,154; Other U.S. and foreign patents pending.

If you prefer an ultra-smooth bass response, you should loosely fill your CompVT enclosure with poly-fill stuffing. Ported designs will require covering the end of the port (located inside the box) with grill cloth, chicken wire, or expanded metal to prevent the poly-fil from exiting the port. The use of poly-fil will slightly decrease efficiency, but will deepen and extend the low frequency output.

For more advice on box building, refer to your Authorized Kicker Dealer, or click on the *Support* tab on the Kicker homepage, [www.kicker.com](http://www.kicker.com). Choose the *Technical Manuals* link and then download or view the corresponding information. Please E-mail [support@kicker.com](mailto:support@kicker.com) or call Technical Services (405) 624-8583 for specific or unanswered questions.

Figure 3 Panel dimension diagram for compact sealed enclosure

Figure 4

D = 3 x 3 for CVT12  
D = 2 x 2 for CVT10

Figure 5

The displacement of the port must be calculated and added to the internal volume of the final design. The dimensions for X, Y, and Z may vary based on the thickness of the material used to make the port.

**A Note on PowerHandlingCapacity**

CompVT subwoofers will handle massive amounts of power in any of the recommended enclosures, minimum or maximum. The smaller enclosures are best for use in limited-space applications. The larger recommended enclosures will yield slightly more bass at the lowest frequencies.

Note: The use of a subsonic filter will significantly increase the power handling. The power handling specifications in these charts are calculated using a 25Hz, 24dB per octave subsonic filter.

Kicker warrants this product to be free from defects in material and workmanship under normal use for a period of THREE (3) MONTHS from date of original purchase with receipt. When purchased from an Authorized KICKER Dealer it is warranted for ONE (1) YEAR from date of original purchase with receipt. In all cases you must have the original receipt. Should service be necessary under this warranty for any reason due to manufacturing defect or malfunction during the warranty period, Kicker will repair or replace (at its discretion) the defective merchandise with equivalent merchandise at no charge. Warranty replacements may have cosmetic scratches and blemishes. Discontinued products may be replaced with more current equivalent products.

This warranty is valid only for the original purchaser and is not extended to owners of the product subsequent to the original purchaser. Any applicable implied warranties are limited in duration to a period of the express warranty as provided herein beginning with the date of the original purchase at retail, and no warranties, whether express or implied, shall apply to this product thereafter. Some states do not allow limitations on implied warranties; therefore these exclusions may not apply to you. This warranty gives you specific legal rights; however you may have other rights that vary from state to state.

#### WHAT TO DO IF YOU NEED WARRANTY OR SERVICE

Defective merchandise should be returned to your local Authorized Stillwater Designs (Kicker) Dealer for warranty service. Assistance in locating an Authorized Dealer can be found at [www.kicker.com](http://www.kicker.com) or by contacting Stillwater Designs directly. You can confirm that a dealer is authorized by asking to see a current authorized dealer window decal.

If it becomes necessary for you to return defective merchandise directly to Stillwater Designs (Kicker), call the Kicker Customer Service Department at (405) 624-8510 for a Return Merchandise Authorization (RMA) number. Package all defective items in the original container or in a package that will prevent shipping damage, and return to:

Stillwater Designs, 5021 North Perkins Road, Stillwater, OK 74075

The RMA number must be clearly marked on the outside of the package. Please return only defective components. The return of functioning items increases your return freight charges. Non-defective items will be returned freight-collect to you.

Include a copy of the original receipt with the purchase date clearly visible, and a "proof-of-purchase" statement listing the Customer's name, Dealer's name and invoice number, and product purchased. Warranty expiration on items without proof-of-purchase will be determined from the type of sale and manufacturing date code. Freight must be prepaid; items sent freight-collect, or COD, will be refused.

#### WHAT IS NOT COVERED?

This warranty is valid only if the product is used for the purpose for which it was designed. It does not cover:

- o Damage due to improper installation
- o Subsequent damage to other components
- o Damage caused by exposure to moisture, excessive heat, chemical cleaners, and/or UV radiation
- o Damage through negligence, misuse, accident or abuse. Repeated returns for the same damage may be considered abuse
- o Any cost or expense related to the removal or reinstallation of product
- o Speakers damaged due to amplifier clipping or distortion
- o Items previously repaired or modified by any unauthorized repair facility
- o Return shipping on non-defective items
- o Products with tampered or missing barcode labels
- o Products returned without a Return Merchandise Authorization (RMA) number
- o Freight Damage
- o The cost of shipping product to Kicker
- o Service performed by anyone other than Kicker

#### HOW LONG WILL IT TAKE?

Kicker strives to maintain a goal of 24-hour service for all acoustics (subwoofers, midrange and coaxial drivers, tweeters, crossovers, etc) returns. Delays may be incurred if lack of replacement inventory or parts is encountered.

Failure to follow these steps may void your warranty. Any questions can be directed to the Kicker Customer Service Department at (405) 624-8510.

Contact your International Kicker dealer or distributor concerning specific procedures for your country's warranty policies.

WARNING: KICKER products are capable of producing sound levels that can permanently damage your hearing! Turning up a system to a level that has audible distortion is more damaging to your ears than listening to an undistorted system at the same volume level. The threshold of pain is always an indicator that the sound level is too loud and may permanently damage your hearing. Please use common sense when controlling volume.

#### GARANTÍA INTERNACIONAL Versión **Español**

Comuníquese con su concesionario o distribuidor Kicker internacional para obtener información sobre procedimientos específicos relacionados con las normas de garantía de su país.

ADVERTENCIA: Los excitadores Kicker son capaces de producir niveles de sonido que pueden dañar permanentemente el oído. Subir el volumen del sistema hasta un nivel que produzca distorsión es más dañino para el oído que escuchar un sistema sin distorsión al mismo volumen. El dolor es siempre una indicación de que el sonido es muy fuerte y que puede dañar permanentemente el oído. Sea precavido cuando controle el volumen.

La frase "combustible para vivir la vida Livin' Loud™ a todo volumen" se refiere al entusiasmo por la vida que la marca Kicker de estéreos de automóvil representa y a la recomendación a nuestros clientes de que vivan lo mejor posible ("a todo volumen") en todo sentido. La línea de altavoces y amplificadores Kicker es la mejor del mercado de audio de automóviles y por lo tanto representa el "combustible" para vivir a todo volumen en el área de "estéreos de automóvil" de la vida de nuestros clientes. Recomendamos a todos nuestros clientes que obedezcan todas las reglas y reglamentos locales sobre ruido en cuanto a los niveles legales y apropiados de audición fuera del vehículo.

#### INTERNATIONALE GARANTIE Deutsche **Versión**

Nehmen Sie mit Ihren internationalen Kicker-Fachhändler oder Vertrieb Kontakt auf, um Details über die Garantieleistungen in Ihrem Land zu erfahren.

WARNUNG: KICKER-Treiber können einen Schallpegel erzeugen, der zu permanenten Gehörschäden führen kann! Wenn Sie ein System auf einen Pegel stellen, der hörbare Verzerrungen erzeugt, schadet das Ihren Ohren mehr, als ein nicht verzerrtes System auf dem gleichen Lautstärkepegel. Die Schmerzschwelle ist immer eine Anzeige dafür, dass der Schallpegel zu laut ist und zu permanenten Gehörschäden führen kann. Seien Sie bei der Lautstärkeeinstellung bitte vernünftig!

Der Slogan "Treibstoff für Livin' Loud" bezieht sich auf die mit den Kicker-Autostereosystemen assoziierte Lebensfreude und die Tatsache, dass wir unsere Kunden ermutigen, in allen Aspekten ihres Lebens nach dem Besten ("Livin' Loud") zu streben. Die Lautsprecher und Verstärker von Kicker sind auf dem Markt für Auto-Soundsysteme führend und stellen somit den "Treibstoff" für das Autostereoelebnis unserer Kunden dar. Wir empfehlen allen unseren Kunden, sich bezüglich der zugelassenen und passenden Lautstärkepegel außerhalb des Autos an die örtlichen Lärmvorschriften zu halten.

#### GARANTIE INTERNATIONALE Version **Française**

Pour connaître les procédures propres à la politique de garantie de votre pays, contactez votre revendeur ou distributeur International Kicker.

AVERTISSEMENT: Les haut-parleurs Kicker ont la capacité de produire des niveaux sonores pouvant endommager l'ouïe de façon irréversible ! L'augmentation du volume d'un système jusqu'à un niveau présentant une distorsion audible endommage davantage l'ouïe que l'écoute d'un système sans distorsion au même volume. Le seuil de la douleur est toujours le signe que le niveau sonore est trop élevé et risque d'endommager l'ouïe de façon irréversible. Réglez le volume en faisant preuve de bon sens !

L'expression "carburant pour vivre plein pot" fait référence au dynamisme de la marque Kicker d'équipements audio pour véhicules et a pour but d'encourager nos clients à faire le maximum ("vivre plein pot") dans tous les aspects de leur vie. Les haut-parleurs et amplificateurs Kicker sont les meilleurs dans le domaine des équipements audio et représentent donc pour nos clients le "carburant pour vivre plein pot" dans l'aspect "installation audio de véhicule" de leur vie. Nous encourageons tous nos clients à respecter toutes les lois et réglementations locales relatives aux niveaux sonores acceptables à l'extérieur des véhicules.
